REASONS TO SELECT A BULL FROM THE MIDLAND FINAL SORT

Largest unparalleled
comparison of bulls
Anywhere!

This year, the bulls
represent over 200
consignors from 34 states.

Developed to hold up.
The primary reason we
have beef cattle is to convert
roughage. Of the major
performance tests in the
Northwest, **MIDLAND**
presently feeds one of
the highest percentages
of roughage in its bull
ration - at least 70%

Each bull is individually
tested for efficiency (RFI)
and Feed Conversion
- identifying the most
efficient cattle for this trait
provides one of the greatest
opportunities for ranchers.
Midland Bull Test is
America's largest source of
feed efficiency, RFI and Feed
Conversion tested bulls.

All bulls are clean for
genetic defects as identified
by respective breed
associations.

Semen Tested
Carcass Ultrasounded

Sale bulls represent the
top 5% of their respective
herds.

Screened for Soundness
and Disposition

BVD-PI Tested Negative.
