Welcome

It is my privilege to welcome you all to our third annual Bred For Success sale and this year we have a little change we have been able to secure and have the sponsor of one of our partners, Rural Route 5 Simmentals to host our sale in November 4th in St Johns. We're thankful! I think this will be a good opportunity to have the sale more available to some in the southern part of Michigan and other states.

It will give the buyers another option of quality genetics for their program. I have been a friend of the Marshall family since Neil was young teen. I am proud of this young family stepping up to inspire and insure we will continue to high quality Simmental promoters going forward.

All of our quality, Simmental and Angus partners continue to step up their game, breeding the best genetics in their breed available. Now you are going to be the ones who benefit from this offering in 2023. The cattle business is stronger than it has ever been, and the demand remains high, so with confidence we are offering this opportunity for you to benefit from all our partners work! We are looking forward and excited to see you at the sale November 4th!

See you at the Sale!

Craig Pollington

Marshall Vista Livestock

A special sale attraction. Offering choice of these two powerhouse maternal sisters who have already seen success in the show ring. Kid-safe and perfect for a young showman, with both being shown by our 8-year-old nephew. L301 was Champion Simmental female at the MI State Fair with L335 being Reserve. Their dam was purchased in the Silver Towne Farms dispersal and bred in the Hudson Pines program. She traces back to the original STF Desa Rae and ER Redline 42B donors that were the foundation of the great Silver Towne program. L301, the solid red version is the natural calf sired by SS Fort Hayes. She is a little further along being a January and already looks like a cow. Wide pinned, deep flanked with impressive spring of rib for a heifer her age. L335 is a beautiful dark red baldy ET heifer sired by the popular \$300,000 Pandemic bull whose semen is limited and only available by auction. L335 is a little younger being a March, but has plenty of frame and length of spine. With more time on feed she will be hard to beat next summer as a big bred. It's your turn to decide which heifer fits your program best. We're happy to keep the other one. You can't go wrong either way, these two females are worth the trip to St. Johns on November 4th. Be sure to be the last one with your hand raised, heifers of this quality are hard to find, and are always worth the investment.

The Bred for Success is in its 3rd year and the group keeps raising the bar on quality of each of their perspective herd and you the customer whether in Michigan or any other state. Make a special note the date is the first Saturday in November which is Saturday the 4th. The sale will be at one of breeders involved Phil Smith at Rural Route 5 in St Johns. The group wanted to move south to accommodate more breeders however want to continue to supply genetics from customers from the previous years. We want to invite you as a breeder whether you have commercial cattle, Simmentals, Red Angus or Angus. The breeders are offering a great set of cattle and genetics in 3 different breeds. The sale represented some long time, well respected and dedicated breeders. Each member has been and will continue to be dedicated to the seed stock, beef business, genetic improvement and customer satisfaction.

The name of the sale is fitting because they have taken the time to breed cattle that make their program successful and yours as well. The group never loses sight of customers and stands behind their product. I would encourage anyone whether you know each participant or not, call and get to know and find out their genetics. These breeders know their product no matter what breed they represent. In doing you can see their enthusiasm and excitement about being in the beef business and living life each day and day out.

The Bred for Success welcomes Neil, Brenda and Carter Donald Marshall of Marshall Vista Livestock. On special assignment and sale vet is Dr Pol. If you don't get his autograph he will definitely get it on the bottom of your health papers. You never know with Dr Pol they could be special additions come sale day. As always hospitably by Dr Pol and Bob Delong. This year look forward to a special cash raffle that will be worth the trip. Watch for additional info in the catalog and this is more than winning a hundred bucks. You must be present to win.

We at DP Sales Management are always accessible and willing to answer any questions on sale matters of any kind. On our behalf we are glad and proud to represent the Bred for Success group of breeders.. If for some reason you can't attend sale day be with us on DV Auctions. So put this sale on your bucket list. Trucking, insurance, records and any of your needs are all available.

Doug Parke

We were fortunate to be able to acquire X200 from our friends at Lazy C Diamond Ranch in North Dakota. Being able to purchase an elite donor who has been mated to sires from both the show and production side has proven her value as an elite breeding piece. She is sure to help move our program forward for years to come. Offering 3 conventional IVF embryos guaranteeing 1 60 day pregnancy if work is done by a certified embryologist. Stored at Boviteq. The Bold Venture is an exciting mating that is sure to produce front pasture worthy animals. This mating will make those show heifers that you want to save for cows. The Lover Boy mating will make females to build a program around. The bulls will have the power and phenotype to make a herdsire. A bonus is chance to get a red.

PE to ROZ Rose Bowl, ASA#3793853 from 7/1/23 to 8/15/23

54K is a red female that should have a few friends on sale day. This heifer is backed by the Bankroll son, Rose Bowl. His calves really look good across the board, just ask my grandson he picked several out for his small herd. 54K is complete and stout. As you will see these girls will be way more impressive than their pictures.

Here is one my top bred and I feel you will feel the same. We try to breed cattle like this daughter of Oracle. Over the last several years Oracle has been the top sire group. This female has been a standout since birth and I expect even more as a first calf heifer. She could be even be a donor if the new owner desires, either way one that will add genetic merit, marketable calves and which equals profit. My wife likes selling, but wants to keep this Oracle. Go figure. Invest for the long haul. . A plus she was ai to OMF Epic with sexed heifer semen.

PE to DJM Viper H003 ASA# 3828920 from 5/16/23 to 7/8/23

Katrina K228 is sired by the performance leader LCDR Favor with impressive EPD's in the top 15% of the breed for both weaning and yearling weight, and top 20% for average daily gain. This female will work in a commercial or seedstock program producing high growth calves that tip the scales at weaning time. Longevity is bred in being out of a productive 13-year-old dam that conceived AI first service again this past year and doesn't show her age. In the end, this is the type that makes you money in the cattle business.

AI'd to TJ Gold Strike, ASA# on 4/9/23 No bull exposure.

Katrina K226 was never intended to be for sale. A late addition to our sale lineup because we wanted to offer our best in the Bred for Success sale. Look at her picture, then see her in person and you'll notice her natural muscle shape, depth of body from her chest to her flank, yet she still looks like a lady in her front third. Her full sister was the most successful show heifer bred in our program, shown by Maggie Reid winning Champion Simmental female at the MI Winter Classic and MI Beef Expo and now residing as a donor cow for us. This is your opportunity to tap into proven genetics that aren't available often. No bull exposure.

AI'd to WS Proclamation E202, ASA#3254156 on 5/10/23

Hard to make one better. Miss Liberty, now a bred first calving heifer has completed some of the biggest challenges in her young life. Bred first service in season with an extremely high quality red heifer unassisted and weaned with one of the heaviest weaning weights in our whole herd then bred back first service. The high selling dam ASR Ms Super Baldy B4102 we purchased from the Altenburg herd in Colorado. She has been a great halfblood Red Angus x Simmental foundation female to build a strong cow family. Miss Liberty is also a granddaughter of the queen mother Sandeen Donna 7386 who is from her fathers side who was sired by Remington Lock n Load 54U. Phenotypically and structurally she takes the prize if you are trying to make purebreds that can compete or go on producing club calves with that winning, something special Miss Liberty will get the job done.

Here is special female this headed the direction in make making a complete high quality breed cow. 112K should be maternal just like her dam which has a strong udder. This is a baldie purebred and has the neat well design with balance and style. You don't have to wait long for her calf by Rose Bowl. She is a purebred and will get changed at transfer and might be done prior to the sale. 112K calved on October 3rd with a heifer calf sired Rose Bowl is a Bankroll x Broker purebred back to Champion Georgina

AI'd to THSF Lover Boy B33, ASA#2983443 on 8/16/23

Another Anchor Evergreen 904 daughter. That is right, her dam was still producing calves at 18 years old. This is her last heifer she calved. I am very impressed with her quality and overall positive potential. Her sire has added a lot to this pedigree. He is the full brother to HF Serena 74Y, the Trennepohl bred sire. The only difficult part of this story is she was pronounced safe in calf one year ago for a spring calf and apparently lost it early last year so I bred her back for a mid-summer calf to Lover Boy. She caught AI and you can see the results at her side. I am happy with the results so we bred her back as soon as she showed a strong heat on August 16th again to Lover Boy for a May 25, 2024 calving date. Ms. Taylor Green passed over her return date with no sign of heat. It is looking like we are offering a three in one sale package. Her son CC Dead Eye C15L was born July 16, 2023.

Another daughter of one of our most proven cow families. This young, blaze female with her herdsire son by her side shows you what she can do. She is definitely the right kind. Study her pedigree and look her over. She is in working condition but don't let that concern you, we have had a dry, hot summer this year so it has been a little harder keeping them in top fleshing shape. Just see what she has raised and you will know why she comes highly recommended to you. Bred and safe April 22-23 to OMF Epic E27. Her son out of OMF Epic E27 also sells and his dam is bred back the same.

AI'd to GEFF County O, ASA#3289219 on 5/10/23

The history of this cow family is well known a book could be written of all the winners and high sellers that have been produced over the past 20 years from this strong cow family going back to the Anchor Evergreen 904 Angus matron donor. Just take the time to study her CLRWTR Clear Advantage open heifer that is also in the sale. These genetics fit today's market perfectly in fact to be honest this duo is very hard to part with. CC Tashena is the young cow we chose as a feature lot for this sale. Buy with confidence.

Wow, OMF Epic daughters make great cows. This first calf 2 1/2 year old female has an impressive cow family. Her dam is the maternal 1/2 sister to Sandeen Upper Class and other quality siblings out of Sandeen Donna 7386. CC Ms Liberty's Joy C18H could possible be a donor herself. Good numbered, easy fleshing even as a first calving heifer.

This bred cow is extremely long from end. The length of body turns into pounds.

A female that is stout boned, with a level top and big hip, the most important she had done a great job and do it again. On the bottom side some old genetics Power Drive and Burns cow. Sells safe in calf to Lover Boy.
